

BREMICK®

PREMIUM QUALITY NAILS

2021

Bremick's Nail Offer

With new product categorisation the entire nail range is simplified and divided into five key application groups. Striking colour coding and signage allows the customer to easily select the correct product for their job.

Point of Sale & Pack Sizes

Bremick has invested in bright and informative POS. The silent salesman will help your customer select the correct product. They are also great in-store training aids for your staff.

Bremick recognises the fact that the nail category is rapidly changing. Tradesmen want to purchase smaller pack sizes and the DIYer's only want enough to do the job.

Informative Point of Sale
