

BREMICK®

PREMIUM QUALITY RIGGING SOLUTIONS

2021

Bremick's Rigging Offer

Rigging comprises of a range of products that are utilised with rope and chain; fundamentally for many different applications. Within the Rigging range there are 2 main materials, stainless steel and mild steel which comes in Zinc Plated, Galvanised or Nickel products to suit core applications.

Carded and Bulk

Bremick have a comprehensive range of Rigging products in both a bulk barcoded & carded format.

Additional to the standard rigging products available, it's important to range load rated products that can be used for more safety critical applications. e.g. connecting a trailer, lifting purposes etc.

Bremick provides a comprehensive range at price points that are market competitive allowing peace of mind for retailers & consumers alike.

Bremick conforms to all standards relevant to domestic rigging applications including AS2741 2002 for load rated products and AS4680 – AS4683 associated with galvanising.

Packaging

Carded information includes:

- + Product Name
- + Size
- + Application
- + Finish
- + Working Load Limit
- + Dimensional Tech Drawing
