

The logo for BREMICK, featuring the brand name in a bold, sans-serif font. The letter 'E' is stylized with three horizontal bars, and a registered trademark symbol (®) is located at the top right of the 'K'.

BREMICK®

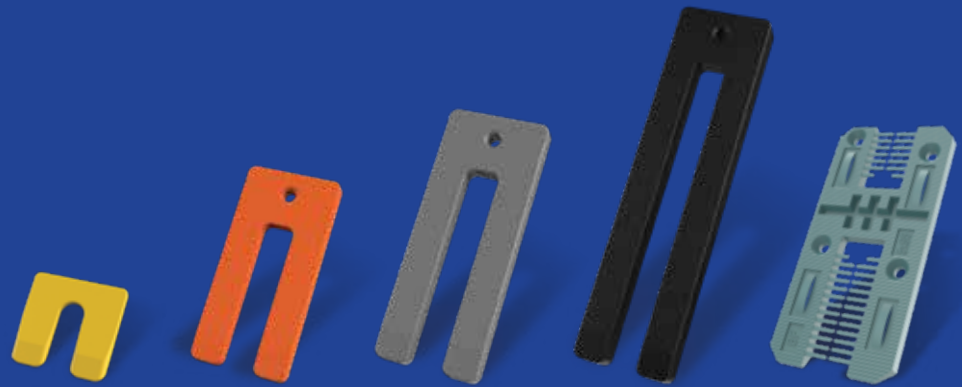

A collection of various plastic leveling tools. In the top left is an orange L-shaped bracket. In the top right is a dark red U-shaped bracket. In the center is an orange push-pin with 'BREMICK' embossed on its stem. In the bottom left is a grey rectangular plate with a grid of holes. In the bottom center is a yellow rectangular plate. In the bottom right is a dark brown rectangular plate with longitudinal grooves. The background is a solid blue.

PACKERS, SHIMS, WEDGES & SPACERS

A comprehensive and versatile range designed to facilitate precise installation and alignment through effective packing, spacing, and levelling of surfaces

IQ PACKER

Bremick IQ Packers are a patented intelligent window packer with the flexibility to adapt for all types of applications.

This unique design allows the packer to be separated into various configurations for ultimate versatility while the anti-slip ridges prevent multi-layer packers from sliding.

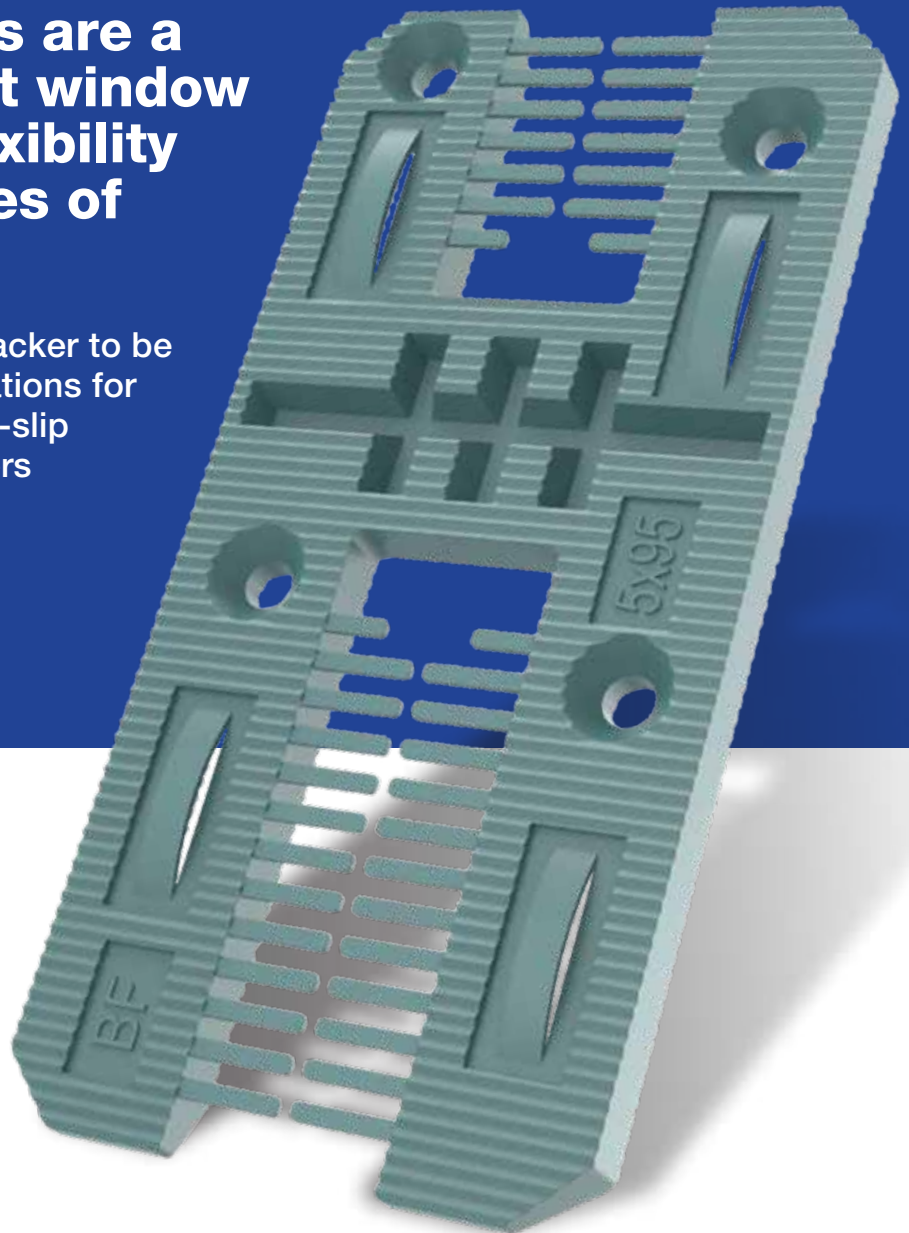

Unique design allows the packer to be separated into various configurations

Anti slip ridges prevents multi layer packers from sliding out of place

BUILDERS WEDGES

High impact
load bearing

Ribbed profile
provides anti-slip
surface

Bremick Wedges are a triangular shaped high impact, load bearing product designed for securing and levelling items.

The ribbed profile design provides a non-slip surface and allows for two wedges to be used to create an interlocking block that can be increased and decreased in height.

Colour coded thickness for easy identification

Thickness (mm)	Colour
10	Black
15	Brown

T SHAPE SPACERS

Unique head design for easy removal

Enlarged base for greater stability

Bremick T-Shaped Deck Board Spacers are designed to provide consistent and uniformed spacing between deck boards during installation. Gaps between deck boards are required to provide ventilation and to accommodate deck board movement.

T-Shaped Deck Board Spacers are specifically designed to provide quick and easy installation of softwood, hardwood and composite decking. Manufactured from high quality polypropylene to ensure strength and longevity.

Colour coded thickness for easy identification
